

**ANNOUNCEMENT**
**PARAMETER (RLE) SEAHAWK 10K PRODUCT DISCONTINUANCE**
**December 12, 2025**

The Parameter (RLE) Seahawk 10K leak detection controller is now discontinued.

Please see below the replacement options along with specs.

For distance read controllers your options are the LD1500, LD2100, and LD5200 depending on length of needed cable. If form factor is a bigger concern, we have two zone leak detection units, the LD310 and LD1000, that may be more suitable.

Seahawk 10K specs:

- 10,000' of distance read capability.
- 12-24 VDC or VAC
- Modbus RTU comms
- Front panel 7 segment display
- Audible alarm
- Relay output
- DIN rail or panel mount compatible
- Dims: 2.8" W x 4.3" H x 2.4" D

Here are the alternative products with specs. Please contact Parameter for assistance with selecting the right replacement product.
